RE: Letter of Recommendation

Dear Rudy:

Over the past few years, I have worked with your company on several projects within the Dallas/Fort Worth, Texas area including the reroofing project at City Hall and currently Love Field Airport.

I would recommend Castro Roofing be considered for any upcoming roofing project. Your company and staff demonstrated a truly professional approach to installation of roofing involving not only high public exposure but difficult and unusual designs which were completed within budget and time constraints.

I look forward to working with your company in the future. It was a pleasure working with both you and your staff.

Regards,

CONLEY DESIGN GROUP, INC.
