Dear Rodolfo Rodriguez,

I would like to take the time to recommend and congratulate Castro Roofing of Texas for a job well done on the built-up roofing work performed at the University of Texas at Dallas Natural Science and Engineering Research Building. Castro Roofing of Texas helped coordinate, schedule, and install a quality built-up roof system on time and within budget. Also I would like to personally thank Jimmy Scott and Juan Rodriguez for the work put into project.

Thank you,

Fred Lindeman
Senior Project Engineer
